

# Bahama Shutter Closing Instructions

## 1<sup>st</sup> Floor

\*Diagrams show Bahama Shutters in typical closed position.

Step 1: Remove telescoping arms on each side by taking pins out.

Step 2: Bring shutter flat to wall (see diagram).

Step 3: 1<sup>st</sup> Floor Only- Install Z-Bar on each side of shutter by sliding it over 2 screws protruding from wall, then secure with a wing nut on each screw (see 1<sup>st</sup> floor diagram).

Step 4: 2<sup>nd</sup> Floor Only- Insert 3/8" rods through corresponding holes on bottom edge on shutter and L-brackett on outside wall (see 2<sup>nd</sup> floor diagram)
